

How to play the game:

Together as a team answer the questions by choosing from the multiple choice answers. There are either one or two correct answers to each question, teams must decide whether they think it's one or two and select appropriately. You will only be scored on the first one or two answers you put down - so if its a one answer question and you put down two answers you will be scored on the first answer you write down.

Equipment:

Table and 6 chairs
Question sheet
Answer sheet for each team
Pens x4
Answer legend
Clipboard and pens for volunteers

Tips for organisers:

Tell the teams that they may talk among themselves. Remind the teams to write their Branch/ Centre name and number on the sheet. Tell the teams there is often more than one answer to be selected, they must decide how many themselves, they will only get scored for the first one or two answers selected if they put more than the number of answers needed.
They must put their pens down at the final whistle.
Score the answers against the legend, second person double check and initial the score.

Equine Welfare Questions
