## Guess the Item

## How to play the game:

Each member of the team selects a side or end of the table to sand next to, on each side/end will be three bags with items inside. They and only they can feel through the bag and must identify the item inside by feel alone.

One team member stands on each side/end of the table, three bags of items will be on the table on each side/end. Each team member is given 2 mins to feel their bags and identify the items inside, each bag is numbered and the team members tell the helper what their guess is and the helper will write it on the answer sheet next to each bags number. Members are only allowed to feel their bags during their allocated time, they must not touch the bags at any other times.

## Equipment:

Table and 2 chairs
12 numbered bags of items with closed ends
Answer sheet for each team
Pens $x 4$ for team members
Clipboard and pens for scorers
Answer legend for scoring

## Tips for Helpers:

Tell the team members to pick a side or end to stand at, during the 8 mins of play time ensure they know that they each have 2 mins to feel their three bags and guess the answers, they need to tell you what they think is in each bag and you write it on the answer sheet. Each bag is numbered and the answers need to be written on the answer sheet next to the bags number. Make sure the teams know that they are not to touch the bags unless it is their allocated time slot.

Reset the table for each next team by making sure that none of the items have been removed from bags and that they are in place.

Arrange the table so that bags $1,2 \& 3$ are together, $4,5 \& 6$ together etc and then have the member stand at bags $1,2 \& 3$ go first and so on so that you are helped to write their answers down in numerical order on the answer sheet.

When finished mark their answers against the answer legend.

If a team only has three members each member has four bags and 2 mins 30 sec each.
