NOTES TO COURSE DESIGNERS

It is recommended that a BS Panel Course Designer is used if possible.

For Area Competitions a BS Course Designer is mandatory. If the course designer is not qualified, then approval must be sought from The Pony Club.

It is important to use some ‘fill-in material’ so that the fences look inviting and hollow plastic poles are not allowed.

Safety Cups - Safety Cups are mandatory for all Pony Club Show Jumping Competitions including any practice fences. To be used on the back rails of spread fences and middle and back rails of triple bars.

The Course:

- If possible the first two fences should be sited to be jumped towards the Collecting Ring.
- One third to one half of the obstacles should be spreads and must include at least one square oxer.
- Distances - Unless the competition class stipulates the height of pony the distances should be for horses.
- In a course designed for a mixed class (horses and ponies) it is important not to use difficult committed distances so that ponies can adjust their strides. There should be no three stride distances anywhere in the course. There must be no less than five strides on the approach or following any combination, (either double or treble). Except where the rules for the competition stipulate and there is a significant mix of sizes of ponies/horses, one or two double combinations instead of a double and a treble may be better suited to the competition.
- When the second or third element of a double or treble combination is a spread, the distances must be as for two non-jumping strides.
