Date: Saturday 22nd May 2021

Timing: 9.30am – 4.00pm

Venue: Gleneagles Equestrian Centre, Auchterarder, Perthshire, PH3 1NF.

Cost: £42 paid at time of application. [http://branches.pcuk.org/area19/bookings/](http://branches.pcuk.org/area19/bookings/)

This Workshop will count as an update for the mandatory biennial B Test Assessor/ Probationary Assessor CPD requirement.

**Places are strictly limited as this is an interactive workshop.** Applications close on the 30th April or when the places are filled.

**Who is this workshop for?** This workshop is only for current listed B Test Assessors, B Test Probationary Assessors, Recognised Area Test Trainers and Area Listed C+ Test Assessors and Probationers.

**What are the aims of the workshop?** This practical workshop aims to clarify the skills and knowledge needed to assess The Pony Club B Test and deliver a standard setting for both the care and riding elements of the qualification. During the workshop we will:

- Discuss the delivery of the Pony Club B Test
- Clarify what is expected for the B Test Riding and Care Qualification
- Explore questioning technique and assessing psychology
- Run practical sessions standardising what is expected for the B Test Care and how to approach assessing this award
- Have a simulated B Test Riding and clarify the standard required and explore questioning technique

**What do delegates need to bring?** Please bring a clipboard, paperwork and stationery as you would to assess. You will need a copy of the 2016 B Test Riding & Care Syllabus and Sample B Test Questions which can all be downloaded from [www.pcku.org](http://www.pcku.org). Tea and coffee will be provided but please bring additional refreshments and a packed lunch. Delegates will also need to bring a face mask for indoor sessions.

**What do participants need to wear?** This is a practical training course with time spent in the classroom, stable yard and outdoor arena. Please dress appropriately as if you are actually assessing with appropriate footwear and trousers. Please remember that the demo riders will have made a big effort to be there and it is only respectful that we are well turned out too.

This course will be run under current COVID guidance at the time of the workshop.
