

The Needs of The Pony In Summer and Winter

How to use: Laminate the sheet and cut it out into individual sections

In groups the members divide the sections into two piles to decide what their pony's need in summer and winter

Water	Water
Shelter from flies	Shelter from driving rain
Not too much grass	Hay if not much grass
Daily check	Daily check
Shade from sun	Protection from wind
Lots of water on hot days	The ice broken twice a day
Good fencing	Good fencing
Droppings picked up	Droppings picked up
Hay if grass dried up	Place to stand out of the mud
